DWARF APPLE TREES

DOUBLE RED DELICIOUS. Excellent for eating and one of the favorite commercial varieties. Now you can have this wonderful bright red, early ripening apple on a dwarf size tree. Heavy crops every year.

YELLOW DELICIOUS. Identical in size and shape as Red Delicious but is completely yellow in color. Very firm fruit which is crisp and juicy. Bears young and is very productive. The large golden fruit is considered the finest of all yellow apples.

Prices: 3-4 ft., \$2.25; 3 for \$5.75.

Dwarf Fruit Trees

These hardy, productive trees take little garden space, usually bear fruit first year after transplanting, and produce more fruit of larger size than an average size tree. Easy to prune, spray and pick. Beautiful ornamental trees when in blossom—plant in borders, among shrubs or have a dwarf orchard.

DWARF

BARTLETT PEAR

The most famous pear variety which sets the standard of perfection by which other pears are judged. Large waxy, yellow fruit with red blush. Superbly flavored. Ideal for all purposes. **Prices:** 3-4 ft. \$2.25; 3 for \$5.75.

Sensational New Dwarf Cherries

METEOR

Very strong, vigorous, upright, grower with large leaves resistant to leaf spot. Color clear light red, skin thin. Stone small and free. Juicy and very flavorful.

NORTH STAR

Dark red, tender skinned pie cherry, with very juicy flesh. Stone small and free. Makes appetizing pies and sauce of magnificent rich cherry-red color.

Prices: 3-4 ft., \$2.95; 3 for \$7.85.

Quality Nursery Stock at Low Bargain Prices

FREE DELIVERY ON ORDERS FOR \$5.00 OR MORE

The success of any settlement invariably starts from the products of the soil. Growing of fruits, vegetables and flowers will always be foremost and of the greatest importance because the growing of such products makes possible the basic necessities of life and food. Also for health, comfort, happiness and contentment.

At no time in the history of our Country has there been a period when homes and fruits were more sought after than at the present. Start to plant your home now. We offer plants, shrubs and fruit trees that are grown in the best parts of our Country for their best development by Nurserymen of long experience. Only the best and proven methods of culture are used. We sell only first quality Nursery Stock. Hanley's Nursery is able to supply you with first quality Nursery Stock at reasonable prices. We solicit your orders on this basis.

STATE INSPECTED

No diseased trees, plants or shrubs are shipped from Hanley's Nursery. All the stock we ship has been inspected very thoroughly by authorized Inspectors and their approval will be shown on the copy of our Certificate, signed by our Horticultural Inspection Supervisor. Every package is accompanied by our Certificate.

WHEN TO ORDER

If convenient, place your order as soon as you receive our Catalogue. It is to your advantage to order early, to be sure of getting the items you want. The stock you order will be reserved for you until the proper time to plant in your neighborhood. We try to keep informed on weather conditions in every section of the United States during the shipping season—from February to late May.

TERMS

If your order amounts to \$5.00 or more and it is not convenient to send full cash now, send one-fourth cash with order and balance 10 days before shipment. Postage, express or freight will be prepaid on all orders of \$5.00 or more. Add 10 per cent for packing and postage on all orders for less than \$5.00.

NOTE—We cannot accept orders for less than \$1.00 or orders not accompanied by a deposit of at least $\frac{1}{4}$ the amount of the order. We do not ship C.O.D.

We guarantee our nursery stock to be true to name, and strive to avoid mistakes. However, if a mistake should occur, we will replace the stock or refund the full purchase price. Beyond that, we cannot be responsible.

BUY BY MAIL AND

1. Make your selections from a complete stock guided by true illustrations and descriptions.
2. Shop in the comfort of your home with the entire family in on the fun.
3. Have the advantage of buying carefully grown and protected trees and plants in best condition for successful transplanting.
4. BE PROTECTED BY

HANLEY'S GUARANTEE

No. 1 We guarantee the stock to be true to name. If it proves otherwise, we will replace it free or refund the amount you paid for it.

No. 2 We guarantee the stock to be first quality and to reach you in good, live growing condition. Examine the items carefully upon arrival and if you are not satisfied, return the unsatisfactory items at once and we will replace them free or return your money.

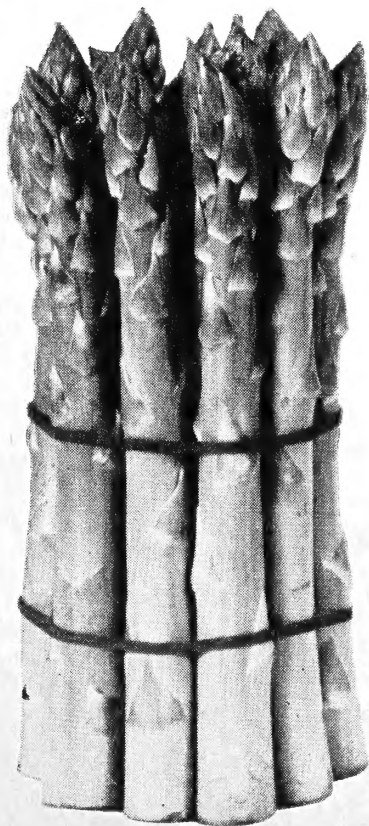

No. 3 The stock we sell is very carefully handled and under ordinary conditions should grow for you. However, if it does not grow, owing to the weather or other conditions over which we have no control, we will replace it at half price the following season. You are to notify us not later than July 1st, 1956.

Hanley's policy is a generous one. We want you to be satisfied.
J. W. HANLEY, PROP.

ASPARAGUS and RHUBARB

FRESH FROM YOUR OWN GARDEN

New PARADISE Asparagus

The New Giant Strain of Asparagus. It will produce a crop one or two years sooner than will any other known variety today. Producing stalks of immense size and wonderful appearance. Is easy to grow, and once planted will last from 12 to 15 years with very little care. Paradise is the first asparagus to produce in the spring, and this crop is harvested early when you do not need to be bothered with other things on the farm.

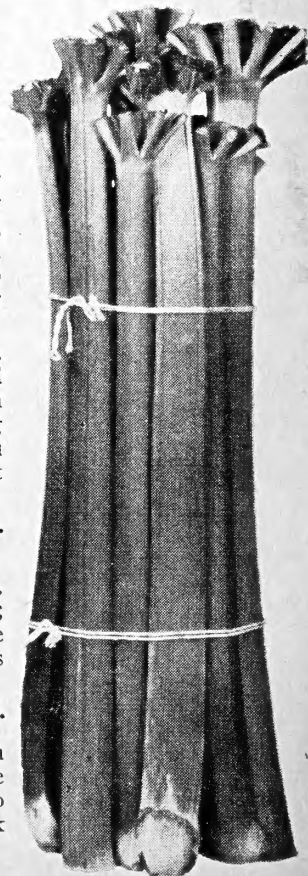

Paradise asparagus offers you a great opportunity to make money. These fine large-rooted plants, produced from expensive pedigreed seed, enables you to buy the world's finest at a cost no higher than for common stock. Grown on special sandy soil, fertilized and dug with special machinery to get the whole root system, we offer you a premium plant at a reasonable cost. Paradise asparagus does not require any special care.

PRICES: Giant 3 Year Old Paradise Plants That Will Produce Early.
12 for \$1.25; 25 for \$2.00; 100 for \$5.95; 1000 for \$35.00.

McDONALD RHUBARB—A fine Rhubarb, Bright Cherry Red Color. Very long stems. Tremendously productive. Tender, rich spicy flavor; do not peel. McDonald is so tender peeling is not necessary. The huge bright red stems get 2 feet long and $1\frac{1}{2}$ inches thick. It attracts special attention on the market.

Strong Divisions Ready to Bear. Each 65¢; 3 for \$1.65; 10 for \$5.00.

CANADA RED RHUBARB—A brand new Rhubarb imported from Canada. Stems dark red clear to the heart and up in the leaf. Sauce made from our Canada Red will be as red as strawberry jam. Skin so tender it can be cooked with the stem. Grows to a giant size. Stock still limited. We offer divisions as it cannot be grown from seed.
Each 75¢; 3 for \$1.85; 10 for \$5.50.

Cultivated—BLUEBERRIES

THESE GIANT CULTIVATED are the results of scientific breeding by State Experimental Stations and are much superior to the ordinary wild Blueberry. From 2 to 6 Bushes in your Garden will furnish your family with plenty of berries for the most delicious Pies and Canning. Blueberry Bushes are beautiful and make very Ornamental Bushes, reaching a height of from 6 to 8 feet, depending on the varieties you plant. Blueberries require an acid soil which contains an abundance of Peat Moss or other partly decayed vegetable matter. If your soil is deficient in acid, a heavy application of Peat Moss, rotted sawdust or rotted leaves should be applied. If not convenient to get either of the above, use Aluminum Sulphate. Use about one pound per plant. Your Druggist or Fertilizer Dealer in your town should be able to furnish the above materials. Plant in rows 6 to 7 feet apart and the Plants 3 to 4 feet apart in the row.

FOR PROPER POLLINATION Plant 2 or more varieties.

NO ORDER ACCEPTED FOR LESS THAN TWO VARIETIES UNLESS YOU STATE YOU ALREADY HAVE ANOTHER VARIETY. We believe the following Varieties to be the best. We always try to have the best and have been successful so far.

CABOT—The earliest variety to ripen. Berries have a very sub-acid flavor. Do not plant less than 2 feet apart.

RUBEL—A fancy, upright, vigorous grower. The kind you can depend on for big crops. Ripens about 2 weeks after Cabot. Late but extremely delicious. Fruit usually sells from 40¢ to 60¢ per pint; of course, higher since the boost in Food Prices.

STANLEY—Mid-season. Plants tall, vigorous, with large, thick, shiny leaves and very productive. Fruit large, perfumed and most delicious. A variety that is most promising.

JERSEY—Late. Tall, well shaped bushes; attractive appearance; excellent in production. The quality of this huge, grand fruit can very seldom be equaled. One of the best.

SENSATIONAL NEW

EBONY KING BLACKBERRY

THE SURE TO BEAR BLACKBERRY

A super-bearing new blackberry variety. The plants are huge, vigorous growing with minimum of cultivation and trouble. The fruit is extremely large, glossy-black with loads of tangy, juicy flavor. Ripens early and is in demand with processors and the fresh fruit market.

Excellent for the home garden because of its easy cultivation and sure bearing quality. Every berry matures properly and in quantity enough for every home use. Makes the most delicious pies and cobblers as well as fresh fruit and preserves.

The same factors of assured maturity and production of quantities of berries naturally makes it an outstanding variety for commercial production. Ebony King, with its large size, glossy black color, early ripening habit and general good flavor will always bring top market prices.

EBONY KING PRICES:

Each 50¢, 3 for \$1.40, 6 for \$2.52, 12 for \$4.50, 25 or more, 30¢ each.

Ebony King

NEW THORNLESS BOYSENBERRY

This sensational new Boysenberry is **absolutely free from thorns**. SMOOTH AS A GRAPEVINE, can be handled with bare hands. This is a great advantage in cultivation and in placing the vines on a trellis, and most of all, in picking the huge, delicious fruit. Once you grow the Thornless Boysenberry, you will never plant any other kind.

The Boysenberry is a cross between the Loganberry, red raspberry and blackberry. Think of a berry that has a little of each of these fruits all in one gigantic, nearly seedless, beautiful wine-colored berry, with a very distinctive delicious flavor that you will never forget. They are sugary-sweet and juicy, yet firm enough to stand handling. No berry will compare with its delicious, enticing flavor when made into sparkling jelly, jam, marmalade or canned. For pies it cannot be excelled. Its beautiful sparkling juice may be made into a most delicious drink when mixed with four parts of water.

Thornless Boysenberry

NEW EVERBEARING BLACKBERRY

DESOTO

DeSoto big thrifty robust plants begin bearing huge, delicious berries in July and continue until winter.

Berries enormous in size, often measuring more than 2 inches long. Glistening jet-black in color. Finest spicy flavor. Honey sweet. Has but few small seeds. No core.

Why Wait For Blackberries?

Our big, ready-to-bear **DeSoto** plants bear early after planting and continue all summer and fall.

The big, robust plants grow like weeds, will thrive in any kind of soil and bear enormous crops in most sections of the nation. Once planted will last for years.

Several years ago a customer of DeSoto, Illinois, told us of blackberries growing in his and his neighbor's gardens which were yielding a supply of huge, delicious berries for about four months every year. Upon investigation, we bought the plants and began a series of tests. **DeSoto** exceeded our "Rosiest Expectations." It not only bore all Summer and Fall, but the berries were much larger and more highly flavored than those produced on the original plants which had been growing in the same location for more than 15 years, during which time they received practically no cultivation. Despite the neglect, the fifteen-year-old plants were literally loaded with huge, delicious berries throughout the entire Summer and Fall. You can plant a few DeSoto plants in your back yard or along your garden fence and can serve the huge, delicious berries to your friends for more than three months each year. Health Giving, Delicious Fruit is most important. Be sure to plant some DeSoto Blackberries. Order them early so you can plant early and get berries quickly.

DESOTO BLACKBERRY PRICES

DeSoto is becoming more popular and better known each year. **REDUCTION IN PRICES.** Big, Sturdy Plants, **Each 50¢;** **3 for \$1.40; 6 for \$2.52; 12 for \$4.00; 25 or more, 30¢ each.**

"2 or More 10 Quart Buckets Full Every Other Day"

Carbondale, Illinois.

DeSoto, Illinois.

Dear Sirs:

Enclosed is an actual photograph showing an every other day's picking of your wonderful DeSoto Everbearing Blackberries from one row along my garden fence.

We keep them cut back to a height of not over four feet, causing them to spread into a table shape. We pick 2 or more 10 quart buckets full of berries every other day for about 74 days and seldom get a scratch.

The huge, sweet, juicy berries are very delicious when used fresh on the table, requiring but little sugar to sweeten them. They make highly colored, splendid tasting jellies and jams that retain their fresh fruit flavor. Also make the best cobblers and pies you ever tasted in your life.

We are very proud of our DeSoto Everblooming Blackberries and would not hesitate to recommend them to any of your customers, in fact, we consider the DeSoto Everbearing Blackberry the most profitable berry any one can grow. They require but little attention, are exceedingly productive, as well as extremely hardy, and we believe that with the proper cultivation and pruning, they will prove to be just as successful for all of your other customers as they have for us.

Yours very truly,
Mr. and Mrs. C. E. Woolf.

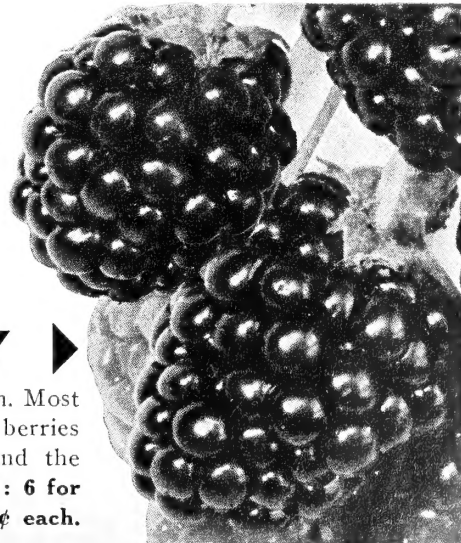

◀ EVERBEARING FIG

Have sweet, Juicy Figs in your Garden. Our Everbearing Fig is well adapted to growing in the north. Will produce either in the field or any container in which it is planted. Fruit is good size, sweet, firm, excellent for preserving or eating. **PRICES: 2 to 3 ft. trees, \$1.30 each; 3 for \$3.65.**

ALFRED BLACKBERRY ▶

Old reliable for garden or commercial production. Most widely planted of all varieties. Mammoth size berries on good strong plants. Very hardy. Will stand the coldest temperatures. Almost coreless. **PRICES: 6 for \$1.50; 12 for \$2.50; 25 for \$4.50; 50 or more, 15¢ each.**

Sweet CHERRIES

Plant Hanley's selected Virus Free cherry trees for dependable, quality production for the LIFE of the tree.

GIANT BLACK TARTARIAN

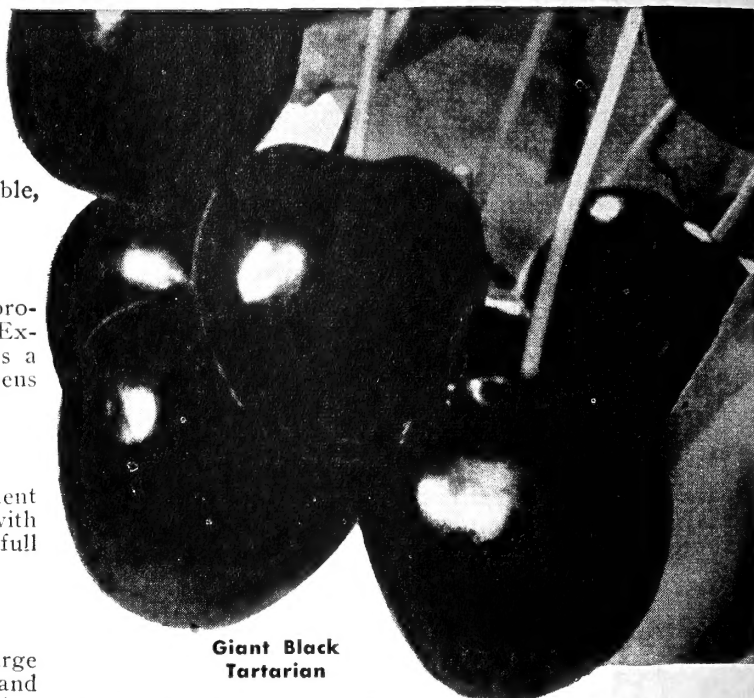

The best of the black sweets. It is also the most dependable producing glossy, blackish purple, delicious fruit year after year. Excellent variety to eat fresh from the tree, for canning and is a superior freezer. Bears young and heavily, very large fruit. Ripens in late June.

NAPOLEON

A choice yellow sweet cherry of the highest quality. Excellent commercial variety as it is a good keeper. Flesh is very firm with a rich sweet flavor. Trees highly productive, coming into full ripeness about July 7 to 10. Good pollinizer for Tartarian.

BING

An old favorite returns. Still one of the best dark reds for large dependable crop good for all uses on a hardy tree. Will grow and produce most anyplace. Always brings top prices on the market because of it's color and large size.

Giant Black
Tartarian

PIE CHERRIES

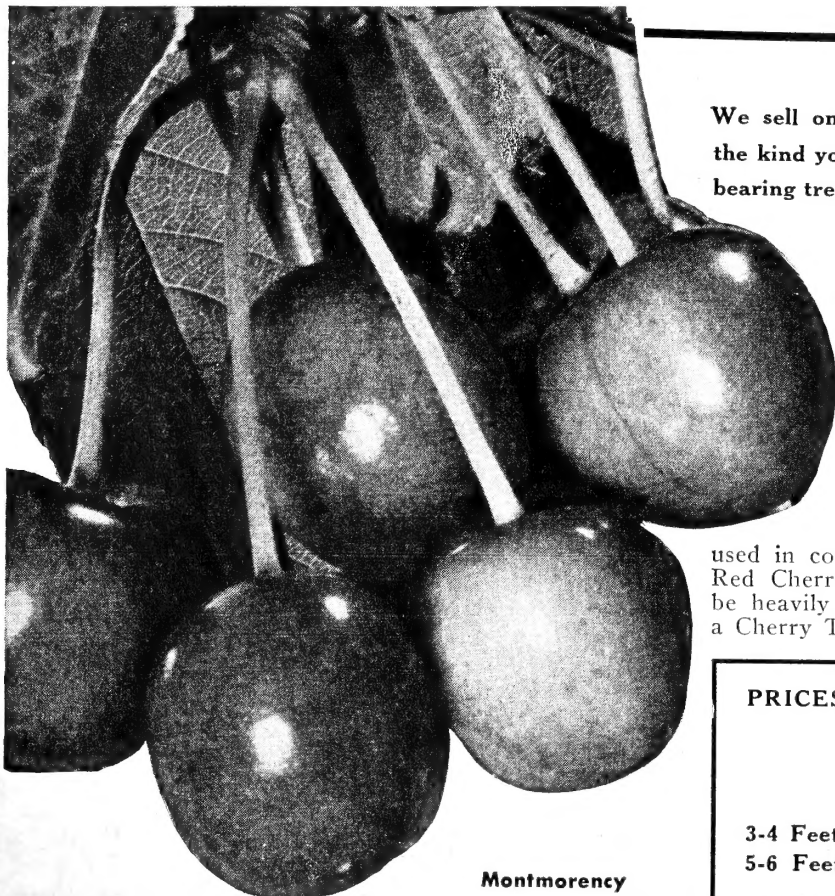

We sell only heavily rooted, well branched, VIRUS FREE trees; the kind you want and the kind that will develop into shapely, heavy bearing trees very young. Please place your order as early as possible.

EARLY RICHMOND

The pie Cherry. Still the favorite where early fruit is wanted. Early Richmond is a bright red Cherry; juicy and full of fine flavor. The trees bear heavily and are considered the hardiest of all red Cherries. You should certainly plant one or more trees of this variety.

MONTMORENCY

The big red Cherry. Best for canning; ripens 10 to 12 days after the Early Richmond; yields heavily and ripens evenly. Grand for pies. This is the variety most used in commercial canning and also the one by which all other Red Cherries are judged. The quality of trees we ship you will be heavily rooted, well branched; in fact, all you would want in a Cherry Tree.

HANLEY'S PEAR TREES

Selected & Tested Varieties—Easy to Grow

Famous BARTLETT

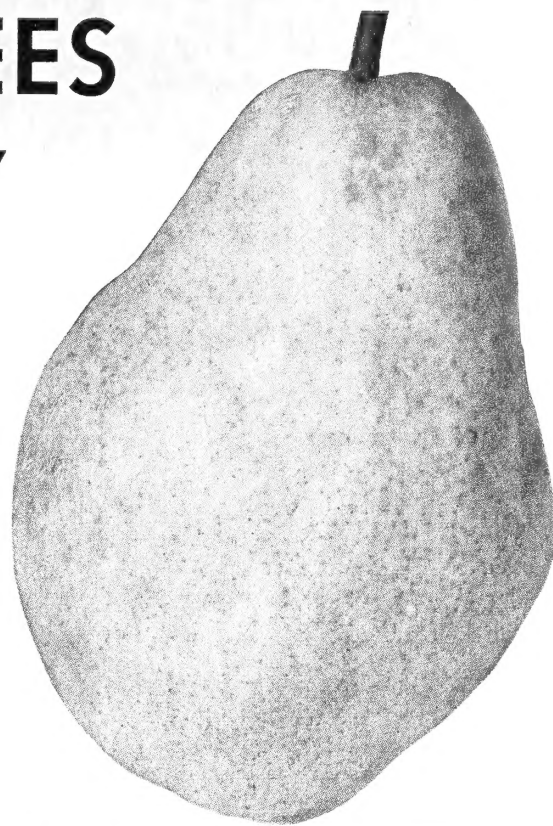

Large, waxy yellow fruit with red blush. Very attractively shaped and uniform in size. The Bartlett is most widely known and popular of all the Pears. Bartlett sets the standard of perfection by which other Pears are judged. Flesh is superbly flavored, fine, white and juicy. Ripens in summer. Ideal for fresh desserts, canning, summer storage. A big money maker, the Bartlett Pear is truly the king of the Pears.

LINCOLN PEAR

An old favorite with a proven, outstanding quality. Recommended for sections east of the Rocky Mountains and from the Great Lakes to the Gulf. A beautiful large, golden yellow with a glowing red blush. Delicious fresh from the tree, wonderful canner, trees thrifty, long lived. Bear young. Ripens in late Summer.

SECKEL GOLDEN DELICIOUS

One of the best quality, finest flavored sugar pears. The most vigorous though not the largest, very vigorous producing small, sweet fruit and lots of it. Outstanding for home planting as well as a commercial profit maker. Blight resistant. Ripens in October.

The Famous 5-N-1

Quintuplet PEAR

FIVE Leading Varieties on ONE TREE

QUALITY AND QUANTITY in ONE. Yes, one tree replaces five. Here's the opportunity for those with limited space to have five mighty desirable varieties of Pear all budded on one tree for a little more than the cost of one tree. Requires only a 20-foot space when fully grown. Fruit equals the same high quality of each individual variety.

PRICE: Quick-Fruiting, 3 Year old Trees, \$2.95 each. 2 Trees for \$5.50.

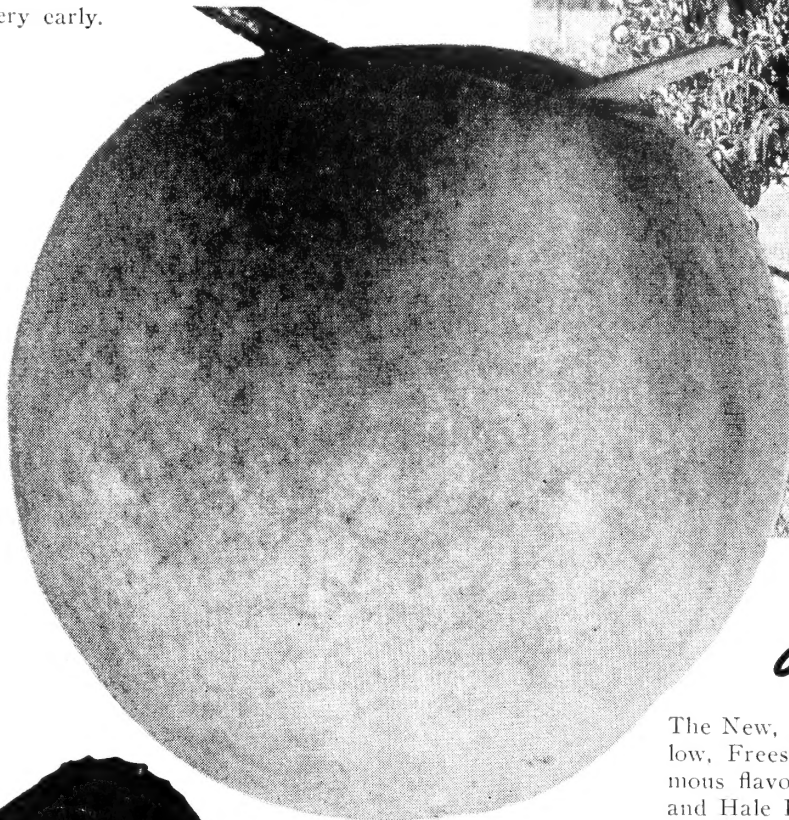

QUICK BEARING PEACHES

Very few fruits enjoy such general popularity as do Peaches. They combine delicious flavor, attractive appearance and health giving fruit value. Peaches can be grown on any soil that will produce the average yield of farm crops. For many years it has been the popular opinion that Peaches would thrive in only certain sections of the Country. With the coming of the new and much hardier varieties, it has been shown that Peaches can be grown over a very large section of the United States. We are of the opinion that the varieties we sell are the best and most hardy varieties. Each tree we sell is very carefully inspected, has lots of roots, straight body, and will grow rapidly and begin bearing very early.

Hale Haven

In our opinion, it is the finest and hardiest Peach grown. This huge, delicious, hardy Peach can be successfully grown as far North as any variety known to us. This marvelous Peach will thrive and bear fine crops of fruit when such varieties as Elberta, J. H. Hale will often be killed by cold Winters and late frosts. Fruit very large and uniform in size and shape. Color rich Golden Yellow, with a sparkling red cheek. A perfect freestone. Has a rich, spicy flavor which is, in our opinion, unsurpassed. Hale Haven ripens a few days ahead of Elberta. We consider the Hale Haven the finest Peach grown. A Peach which simply melts in your mouth.

Hale Haven

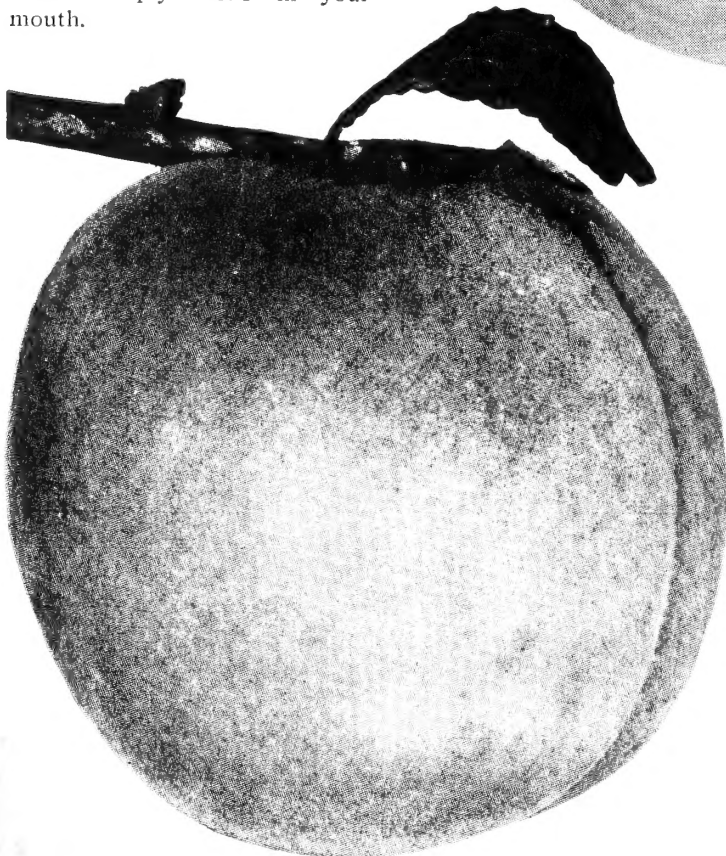

**2 Year Hale Haven
Peach Tree**

Fairhaven

The New, Sensational, Earliest, Yellow, Freestone Peach. Has the famous flavor bred into South Haven and Hale Haven. It is a very hardy variety and a big yielder. 1—Extra Early. 2—Brilliant color before it ripens. 3—Fine Flavor; Sweet and Juicy. 4—Good Shipper; Firm Flesh and Tough Skin.

A profitable, commercial variety. Excellent for Home use where a huge, yellow-flesh, early Peach is desired. Perfect freestone. Medium to large size; fine texture, sweet and of excellent quality. Smooth skin, almost fuzzless. Brilliant red color with creamy yellow, tender flesh. Always bears heavy crops. Originated at the Michigan Experimental Station in 1930 and since has been thoroughly tested. An excellent variety to plant beside Golden Gem.

Fairhaven

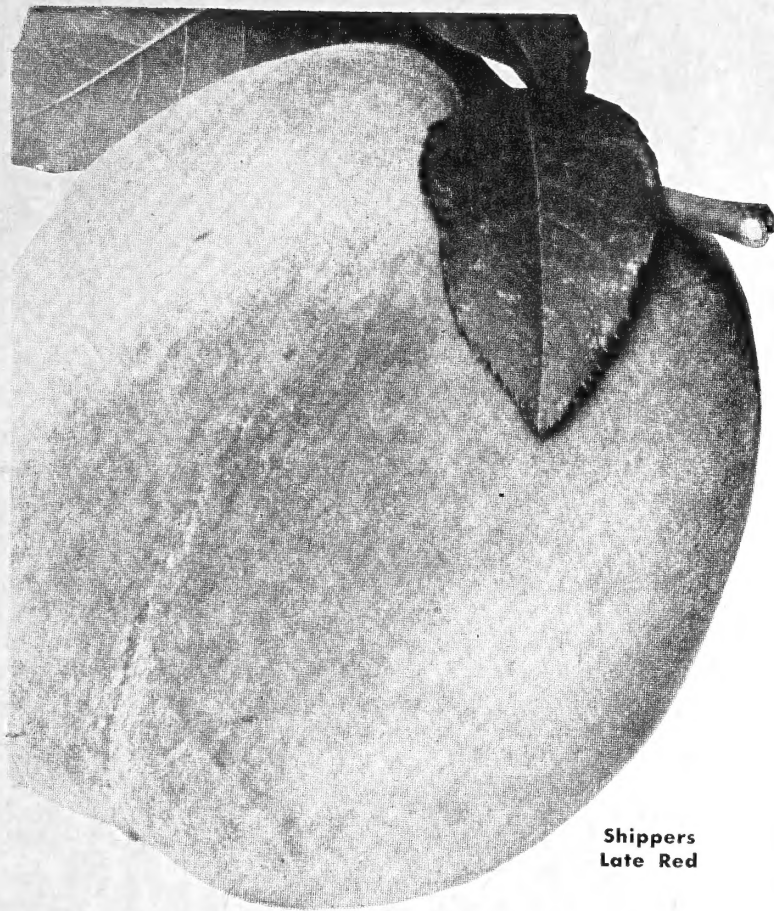

HOME PEACH ORCHARD

Four outstanding varieties selected to spread the fresh fruit season over the longest possible period.

1 Hale Haven 1 Elberta
1 Golden Jubilee 1 Shipper's Late Red

COLLECTION "A" Each

4-5 ft. Orchard size \$4.65
5-6 ft. Jumbo size 5.28

**Shippers
Late Red**

ELBERTA PEACH

Elberta peach ripens here about August 15th. North of Chicago about 20 days later. South of Memphis, Tenn., about 20 days earlier. By this you should be able to figure when all varieties ripen in your section.

Shippers Late Red

Bears about 17 days after Elberta. Skin yellow, with an attractive red coloring. We consider this one of the most perfect Peaches if you are looking for one of the largest, richest, most beautiful, late, yellow, freestone Peaches. It is round and uniformly shaped. Flesh is orange red around the small pit. The rich red color is retained in the canned fruit and juice. You will want to can this variety exclusively for your fancy table use. Perfect Freestone. Don't fail to plant SHIPPERS LATE RED this year. It is a Peach you will be proud of and want to show your friends and neighbors.

Golden Jubilee

The distinguished Peach. Fine flavor; yellow freestone; a sure cropper. Resists excessive cold, severe Winters and late, heavy Frosts. Large in size. Ripens from two to three weeks ahead of Elberta. Considered to be the best early ripening variety. Attractive color and fine texture. Profitable for Market; excellent for Home. What more could you expect in any kind of fruit? One of our favorites.

Elberta

Considered the money maker. Leader of all Peaches. The greatest commercial variety on the Market. 50 per cent of the Peaches planted are Elberta. This Peach is large, yellow, with red cheek; juicy and highly flavored; flesh yellow; freestone. Perhaps the most well known Peach in America.

Polly

A white peach that has been able to stand 15 to 20 below zero. It is a perfect white freestone peach. We do not know of any one variety that has the luscious flavor that Polly has. Is very juicy, but quite firm. Ripens a few days before Elberta. Polly originated in Iowa, which makes it suitable for the South or extreme North.

Amber Gem--Canning Peach

One of the finest canning peaches grown. Really huge in size. Color is bright red tinged with yellow. Flavor is sweet and very delicious. Clingstone. Ripens with Elberta. Hardy, heavy producer.

New Red Skin Peach

An excellent red skinned peach that could easily become the leading commercial variety as it becomes better known. It ripens with Elberta. Heavy producer of fine yellow, firm meat fruit. Outstanding firm shipper or as fresh fruit from the tree as well as a good canner, freezer, or preserver. A truly premium variety, now at regular prices. Plant now and be among the first to have this new variety. Very hardy. Will do well most anyplace.

Red Delicious

HANLEY'S Improved Strain of Popular

DOUBLE-RED DELICIOUS

This is the improved type of the common Delicious. The Double-Red naturally colors up much more and much sooner than the old Delicious. The tree does well practically all over the United States. Fruit is a wonderful size, is finely fleshed, juicy, and has a sort of sweet flavor with a slight acid taste. Excellent for eating and one of the foremost commercial varieties everywhere; also one of the most popular varieties for fruit-stand purposes. Heavy crops every year. Outsell all other varieties. Makes a very good winter apple. A favorite from coast to coast.

YELLOW DELICIOUS

This variety is identical in shape and size with the ordinary red Delicious, but is completely yellow in color. Is sweetly acid in flavor, with flesh that is very firm, crisp and juicy. Splendid shipper. Popular and profitable everywhere. The trees we offer are all from parent trees selected for extra quality, size and vigor. Bears young and is very productive. The large, golden fruits are considered the finest of all yellow apples and are very much in demand.

WEALTHY

This is a variety that apparently does well all over the United States, and is one of the few kinds of apples that can be grown in the northwest successfully. It is a fall apple, medium in size, and has a very fine flavor. Much desired for cooking, eating, and pie making. Bears very heavy and starts very young. The tree is medium sized, extremely hardy, moderately vigorous and productive.

SOLID-RED JONATHAN

Is a solid red type of the Jonathan variety. It colors up very early in the fall and enables you to pick your fruit a week to ten days before the common Jonathan will color up. The tree is medium in size, the fruit is firm, crisp and tender. Long lived, productive, and a very early bearer. Highly valued for table, cooking, and market. A wonderful winter apple.

RED McINTOSH

A superior strain of the old type McIntosh. It is practically all red and retains its color and appearance well after being picked. It sticks to the tree a great deal better than does the common McIntosh. It is a very important Fall apple. Trees are very hardy and bear quite young. An exceptionally fine eating apple, of good size, bright red color, and a delicious aromatic flavor.

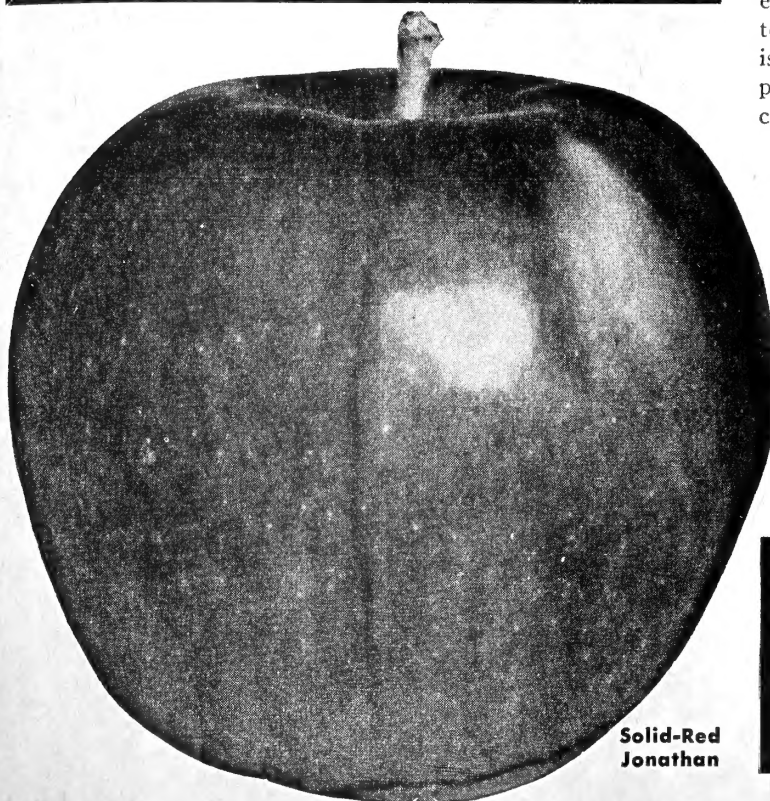

We cannot ship fruit trees into the following states: California, Idaho, Oregon, Utah, Washington, Wyoming, Arizona, Montana, Colorado.

Apple Trees

YELLOW TRANSPARENT

One of the earliest of all summer apples—ready to eat long before other varieties. Tree grows upright, hardy, and an early bearer. Flesh is white, tender, and juicy. Sprightly sub-acid flavor. A dependable profit producer year after year. Excellent for eating, cooking and market. The yellowish-white fruit begins ripening in late July and early August. **Prices on page 10.**

SOLID-RED WINESAP

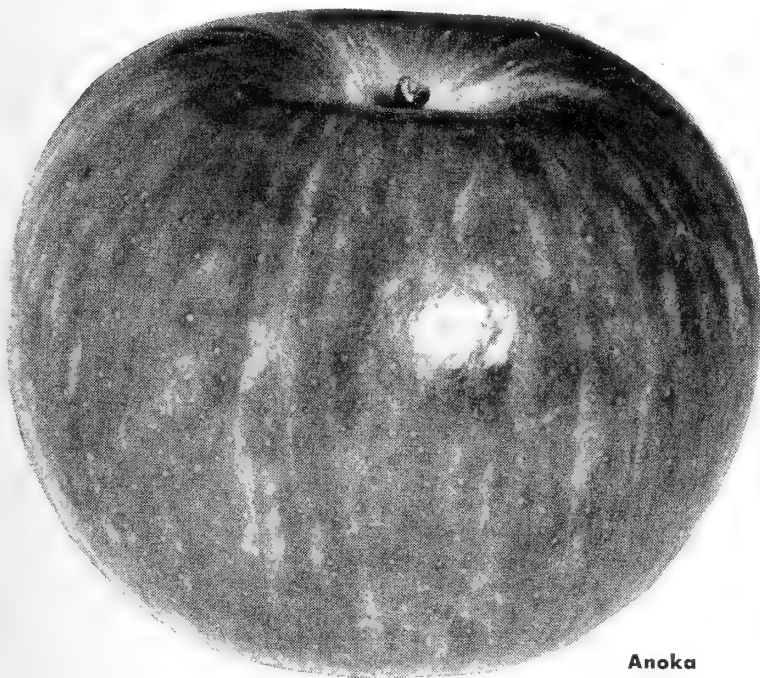

An improved strain of the old Stayman's Winesap. This variety is noted for its wonderful keeping qualities. Fruit is large, uniform and a bright cherry red in color. Flesh is crisp, juicy and has an excellent flavor—slightly sub-acid. Trees are thrifty and hardy; produces large crops year after year. Very popular for eating or cooking purposes. **Prices on page 10.**

Yellow
Transparent

Anoka

ANOKA—A wonderful early Apple. Trees bear while extremely young. No long waiting for fruit when you plant Anoka. A grand variety for old folks. Originated in South Dakota. Originator claims trees often bear fruit the second year. Hardy enough for extreme North. A fine eating Apple; makes delicious pies and a fine flavored sauce. Trees dwarfish in habit and very reproductive. A grand variety for folks with small yards as they may be planted 12 feet apart. Old folks can plant Anoka Apple Trees and often see them bear for several years.

DOLGO CRAB

Distinctive, Ornamental Fruit Tree

The aristocrat of the Crab apple family. A fruit tree attractive enough to plant on your lawn! In early spring the tree is covered with a profusion of dainty pink blossoms followed by brilliant crimson fruit. The fruit is full of juice, jells easily and makes a rich ruby-red jelly, beautifully colored and excellently flavored. Tree is dwarf in size but grows quickly. Bears young, hardy and very productive. Often bears second year after planting. Plant a tree now and enjoy its beauty in Spring and its delicious fruit in Fall.

4-6 Ft. \$1.45

2 for \$2.75

Easy to Grow APRICOTS

SUPERB APRICOT

Rapidly gaining front place among all apricot varieties. Dark green glossy foliage and beautiful blossoms make it as ornamental as productive. Fruit is delicious for eating right from the tree or preserved. Ripens between cherries and peaches. Hardy clear into Canada. Will stand prolonged hot weather too.

PRICES: 4-5 ft. 2-year old trees, \$2.00 each; 10 or more \$1.84 each.

MOORPARK

You'll like this attractive variety. High quality and fine flavor. Fruit is large, deep yellow, with a red cheek. Grows to about the same size as a Peach tree. **Ripens Mid-August.**

4 to 5 ft. 2 year trees, 1 to 9 trees \$1.80 each; 10 or more trees \$1.70 each.

**Hansen
Bush
Cherry**

HANSEN BUSH CHERRY

An ornamental shrub producing delicious fruit; easy to grow; perfectly hardy anywhere. The result of over thirty years' research and selection work by Prof. N. E. Hansen of South Dakota State College. A shrub which is very effective in any landscape planting and which bears delicious fruit of good size and excellent flavor.

Starts to bear the year after planting and continues year after year. Makes superb jam, or clear, sparkling jelly. Don't neglect getting a few of them to add to your plantings. They always retain their dwarf stature. Heavy, 2-year size. **Price 75¢ each; 3 for \$2.00.**

Oka Cherry Blossoms

2-Yr., 3-4 bushes, \$1.50 each; 2 for \$2.50.

NEW OKA CHERRY

One of Prof. N. E. Hansen's newest and best Cherry-Plum introductions. Early bearing—very hardy—delicious flavor—prolific. Dwarf bush habit; bears from the ground up. Showy blooms followed by full crop of fruit. Fruit is about one inch in diameter, purplish black skin and flesh. Very sweet. Ripens late July. Delicious to eat, for jelly and jam.

EARLY GOLDEN

A new Freestone variety which possesses a fine flavor. Skin is smooth—fuzzless, and pale orange in color. Medium to large in size—makes an excellent variety to plant with Moorpark.

4 to 5 ft. 2 year old trees, 1 to 9 trees \$1.80 each; 10 or more trees \$1.70 each.

BUSH CHERRY COLLECTION

1 Oka Cherry, 3 to 4 feet

1 Hansen Bush Cherry, 2-Yr. size

1 Nanking Cherry, 3 to 4 feet

ALL THREE

BUSHES **\$2.79**
for only

NANKING CHERRY

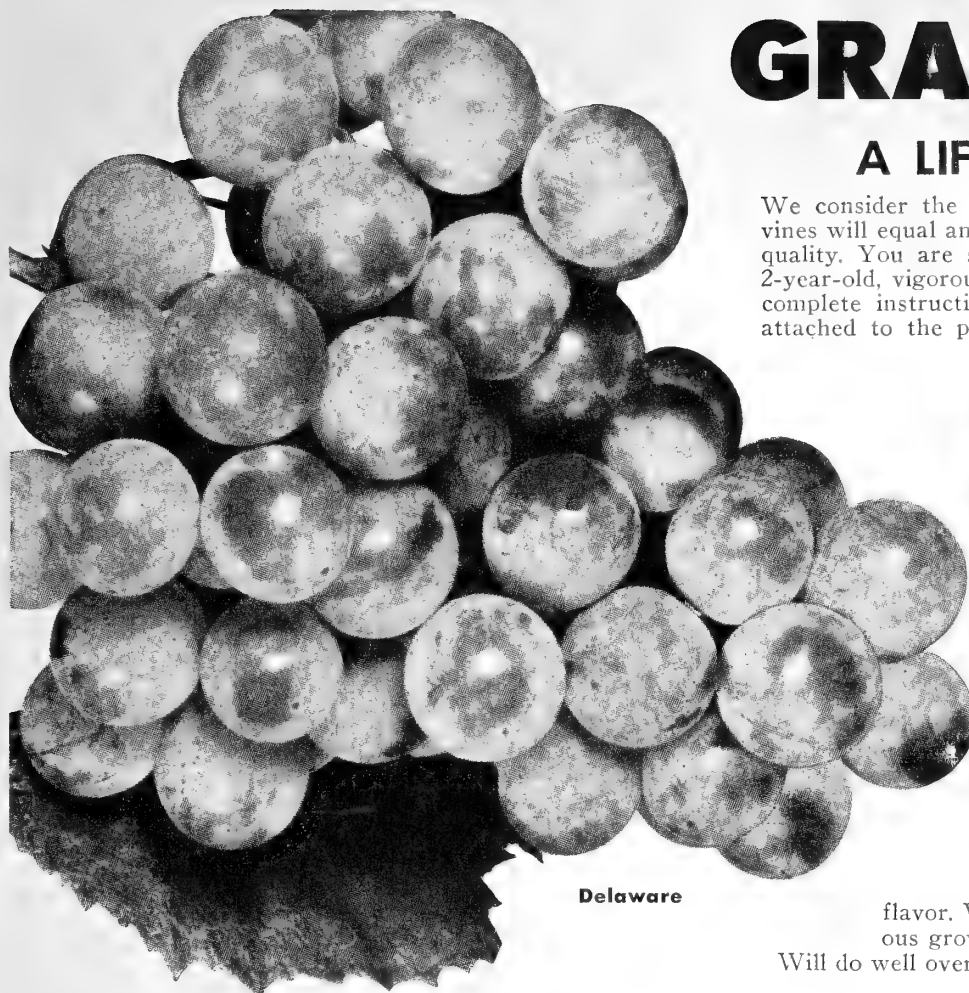

A BEAUTIFUL AND ORNAMENTAL shrub for your lawn that bears great crops of delicious, fine cherries. Fruit is so abundant it takes but a few minutes to pick a quart or two right in your own yard. The delicious fresh fruit is excellent for making pies or superb, sparkling jelly. The attractive, shapely bushes grow from 6 to 7 feet tall, work well into a planting about the house, or a shrub border. Fragrant, blossom pink, but appear early and open to pure white. Our strong, sturdy bushes start bearing year after planted and second year branches are bending and literally covered with sparkling, bright red, superb cherries for pies, jelly and jam. Beauty plus delicious fruit.

Extra Heavy Bearing. Size 3 to 4 feet Bushes, Each \$1.50, 2 for \$2.80.

GRAPE VINES

A LIFETIME INVESTMENT

We consider the following varieties the newest and best. Few vines will equal and none will surpass ours in fruiting ability and quality. You are sure to be more than pleased with our huge, 2-year-old, vigorous vines, the best that can be grown. Free and complete instructions for planting and pruning Grapes will be attached to the package.

1 Fredonia 1 Concord

The above 6 Strong 2- Year-Old Vines for..... 2.89
Double Collection 12 Vines for..... 5.65

BLACK GRAPES

SEIBEL 1000—A new French Hybrid producing superb crops of large, high sugar content, black glossy grapes with wonderful flavor. Very good for wine, jelly or fresh eating. Vigorous growing hardy vine. Rapidly gaining in popularity. Will do well over most of the country.

FREDONIA—A New Grape which Experts and most of the growers say will soon become the leading Black Grape in America. It ripens extra early, 20 days before the well known Concord. Fredonia is produced in huge bunches, and the berries, which are compact on the bunches, are large. An excellent keeper and big producer. In our opinion it is now the leading, huge Black Grape in America.

MOORE'S EARLY—Without question the finest early black grape. It has the most delicious flavor and is of the highest quality of any grape we have ever tested. Bunches extra large, very compact and solid, berries extra large, blue-black thin skin; few seeds. Vine is vigorous grower, enormously productive. We highly recommend the Hubbard.

CONCORD—The leading Commercial Grape. Color, Blue Black; bunches and berries large. Hardy, Productive and an excellent Shipper. Succeeds over a large area. Excellent for Grape Wine.

RED GRAPES

CARDINAL CATAWBA—A beautiful flashing Red. Giant in size; almost Seedless. Extremely delicious and an excellent producer. All you could wish for in a large, delicious, Red Grape.

DELAWARE—By all means plant one or several of this unusually sweet grape. Fruit is small on small bunches. Ideal for the table or preserving. Light red in color. Vine vigorous grower, very productive. Excellent keeper.

WHITE GRAPES

PORTLAND—A New Super-fine Rich White Grape. Ripens earlier than any known White Grape. As the fruit ripens earlier than any other, it is a Super variety for the extreme North. The large berries, which are compact on the bunch, are so sweet they may be eaten even before ripe. Heavy producer and very satisfactory for any Section.

GOLDEN MUSCAT—Wonderful, New, Golden Yellow Grape for Home use and Roadside Market. It is one of the best. Possesses an attractive, rich, golden color and of European Muscat aroma. Vines very hardy, vigorous, very productive. Bunches large and compact. Berries large, sweet and tender. Anyone who cares for Grapes will like the Golden Muscat.

Hanley's Selected PLUM and PRUNE TREES

Easy to grow and usually bear within two years from planting. Few people realize how easy it is to grow the luscious better varieties of Plums and Prunes. Plum Trees, with their fine shape and bright leaves, are attractive in any part of your Garden or Lawn. Plant 16 feet apart.

SUPERIOR: The Largest and the Best

Bears young and heavily. The big yellow fruit with fine tender, deep red skin is delicious for eating from the tree or for jams, jellies, desserts and preserves. Extra large fruit. Tree is strong, fast growing and purple blooms make it brightly decorative. Plant it in the front as well as the back yard. Extremely hardy and does well all over the country. Plant two for best results. Ripens early August.

BLUE DAMSON: The Old Favorite

Grown for many years as a commercial crop or for home fruit. A large freestone type on a strong tree. Sure bearing each year. Bears young. Enormous cropper. Extremely hardy and does well all over the country. Excellent for eating fresh, preserving and for market.

STANLEY PRUNE: Best Commercial Type

Best Commercial Type as well as good for home planting. Sweetest prune grown and bears the quickest. Often starts bearing the second year after transplanting and yields heavily every year. Beautiful dark blue skin, overspread with attractive bloom. Sweet golden flesh so sweet that it needs little sugar for canning. Juice is wine colored and rich. Freestone. Hardy grower anywhere. Self-pollenizing.

HARDY QUINCE

ORANGE: Marvelous as a fruit for jellies and preserves. A profitable commercial cropper or delightful yard tree. Small growing tree makes it popular with those who have little space. It can be grown as a bush or tree. Large golden-yellow fruit ripens in early September. Fruit abundant each year.

PRICES: 4-5 ft. trees, \$2.35 each; 10 or more \$2.25.

HUNTER SURE CROP NECTARINE

The nectarine has size and a smooth skin like the plum. In other ways, it is more like a peach. It is of rich delicious flavor, juicy and melting, and highly prized as a dessert fruit. It is much superior to the peach as a dryer and makes excellent preserves. Can be grown wherever peaches grow. Bears abundantly and early.

PRICES: 4-5 ft. trees, \$1.85 each; 10 or more \$1.75 each.

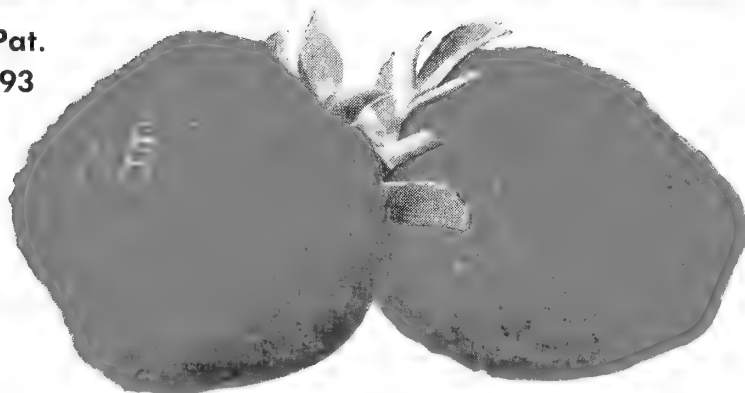

EVERBEARING STRAWBERRIES

New RED RICH Plant Pat. No. 993

Up to a Quart of Berries per Plant

Redder, sweeter, hardier, healthier and more productive than any other everbearing Strawberry! Red Rich has been a sensational success—acclaimed the greatest development in fifty years. It was produced after fifteen years of cross-breeding with Fairfax and Wayzata—one famous for flavor, the other for everbearing qualities.

A perfect berry for freezing—it thaws without loss of firmness, flavor or natural sugars. Keeps and ships well too. Berries are big, luscious and rich red clear through.

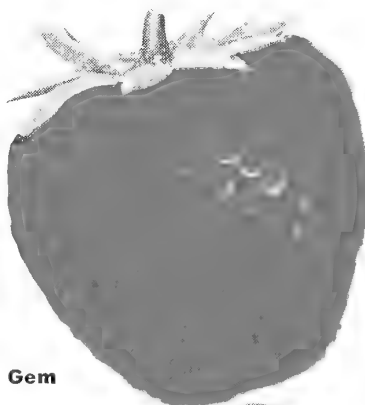

Red Rich

GEM

The variety which has made everbearing strawberries so popular. We like it even better now because experience has proven that it withstands adverse conditions and is so extremely productive. The berries are large, firm, bright red and good quality. Especially fine for canning and preserves as berries hold their shape and color. Excellent freezer. Will bear this summer and fall right up to freezing. It is astonishing how many quarts of berries you will get. Next year they will bear spring, summer, and fall. Self-pollenizing.

STREAMLINER

An outstanding everbearer. Produces big, profitable crops in six months or less. Large, attractive berries are borne in spring as well as fall; by September it fruits so heavily that it is sure to be a big profit-maker. The berries are large, well-shaped and well-colored to the center, with no green tips and never hollow. Excellent variety for freezing; berries are firm-textured, and have a rich, delicious flavor. Plants are very hardy and prolific, producing an abundance of runners. Does well on either clay or sandy loam. Good variety for home gardeners and commercial growers. Berries keep well.

Delicious Spring Bearing STRAWBERRIES

BIG, HEAVY YIELDING, SELECT PLANTS

Sparkle

Catskill

CATSKILL

Generally recognized as one of the best of the midseason to late varieties. Large quantities of huge, bright, shiny berries every year on this "sure cropper." Hardy plants which very rarely freeze. The wonderful fruit is produced on long stems for easy picking. Excellent freezing berries. Plant has rich, waxy foliage. Try some Catskill this season. You will be pleased with the results.

AROMA

Extra Late Giant

Largest and most perfect June bearer. Berries are huge, bright red, firm and excellent quality. Holds its size right to the last picking. Productive, and the large berries soon fill the dish or container for canning or freezing. Truly, an outstanding late season berry.

SPARKLE

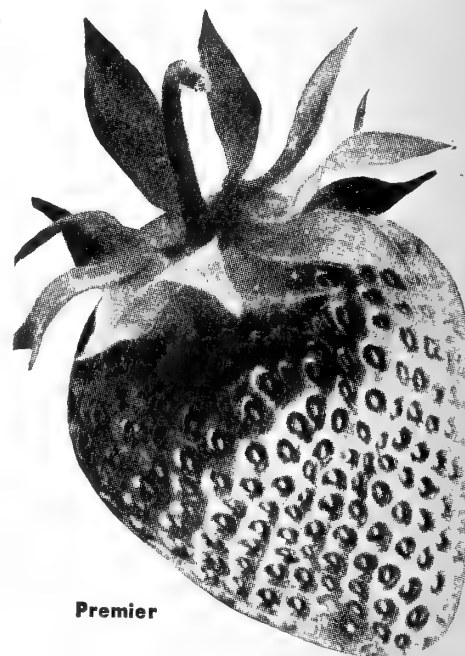

Outstanding midseason Strawberry! Ripens about 10 days after Premier. Truly a beauty. Its glossy, rich red coat fairly sparkles. Berries are fine quality, round, medium large, firm, solid red color, excellent fresh or canned — splendid for freezing. Vigorous, healthy plant growth; good plant maker; good market berry. Immune to red stele. Productiveness ranks with Premier and Catskill at their best. Few varieties can claim so many fine characteristics. Introduced by the New Jersey Experiment Station; does well anywhere.

PREMIER

A valuable extra-early Strawberry. A large berry of uniform shape and size, excellent quality, rich color and highly resistant to frost. These qualities make Premier a profitable market variety.

Robinson

Premier

SENATOR DUNLAP

The old standby. A mid-season variety that grows on all types of soil and in all climates. A good producer and a fine berry.

ROBINSON

The largest and best Berries. About 30 Berries fill a quart box. Color, rich cardinal red. Flavor, sweet and delicious. Excellent keeping qualities. Heavy yielder. Ripens a few days after Premier.

BLAKEMORE

Extra Early. Extra-early, bright-red berry favored for large-scale planting and long-distance shipping. Stands adverse weather conditions, drought, etc. Always bears a big crop of firm, flavorful fruit. Self-pollinizing.

BIG, STURDY, READY-TO-BEAR RASPBERRIES

PAY BIG PROFITS—Easy to grow, require but little attention, should be in home garden, full instruction will be with shipment. If you plant strong ready-to-bear plants and follow our simple instructions, your success is assured. We offer only varieties which are guaranteed to succeed.

BLACK RASPBERRIES

NEW GIANT BRISTOL: This is the best new mid-season Black Raspberry. Is very hardy, vigorous grower which will even do well in the South. Produces tremendous crops of large, jet black, almost seedless berries year after year. Plants are almost disease free. Will thrive in most any kind of well drained soil and its deep, strong root system helps it thrive in the dryest seasons. Large crops of highly flavored berries makes it a big money maker and much in demand. We believe this variety surpasses anything we have offered in the past, both for fresh eating and preserving or freezing, as well as being a highly dependable producer and long liver.

CUMBERLAND: The old reliable standard black Raspberry. Thrives everywhere. Berries unusually large, firm, jet black. Cumberland is the most extensively grown. Excellent for eating fresh, canning and freezing and for commercial use.

PURPLE RASPBERRIES

SODUS PURPLE: A cross between a Red and a Black Raspberry! If you're not yet growing Sodus, don't let another year slip by without planting some. Their delicious, zestful flavor is distinctly different and offers a real flavor thrill! The huge, firm berries of a wine-red purple color are unequaled for jams and jellies. The husky plants are heavy producers; easy to grow.

RED RASPBERRIES

Sensation Everbearing INDIAN SUMMER: This excellent berry has much to offer over most other varieties both for home use and commercial production. It has an earlier season of ripening. Tremendous volume of production with two crops, first in spring and then repeating in the fall. It is hardier, even thriving in Canada and does well in the Southern Raspberry sections. Plant is long lived, disease resistant. Should be in every garden. For the price of one crate of berries, you can have enough plants to give you fresh berries galore for years and years to come.

GIANT LATHAM: Giant in size, and extra hardy. Berries are large, many an inch long, dark red and firm. Pick easily and ship well. Bears large crops and is a real money maker. Commercial producers report plantings often run as high as \$400 to \$800 per acre in a single year.

THIN SHELL
PECAN**

No. 184 **ALLSTATE PECAN**

This is a very hardy, large, thin-shell Pecan. This Pecan can be successfully grown over as large a section of the U.S.A. as any other known Pecan. Usually Pecans will grow in soils that will produce good farm crops. They, like any other Pecan, will thrive in low land even though it is sometimes flooded. Trees grow rapidly and usually begin bearing young. Nuts large; kernels crisp, plump and very delicious. The Pecan is a long-lived tree.

No. 186 **STUART PECAN**

Hardest of the budded Paper Shell varieties. Can be successfully grown as far North as Southern Illinois. Nuts large, very delicious and of excellent quality. Trees ornamental and of rapid growth. A very profitable variety for Commercial planting. A grand Paper Shell variety for those located South of Central Illinois.

SHELLBARK HICKORY

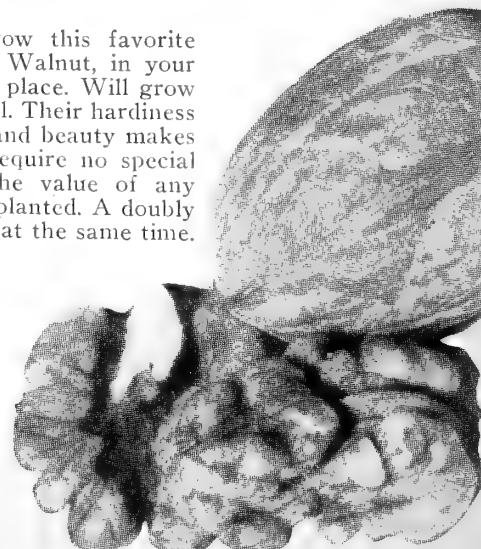

No. 185. Most popular of all Hickories. A favorite with everybody. Trees are long-lived and highly ornamental. Much esteemed for the fine quality and flavor of its nuts. Kernels full and plump; sweet and very delicious. Trees vigorous growers and grow into beautiful specimens. Bears abundantly. Plant some on your own place so you won't have to go hunting for them.

PRICES: 3 to 4 ft., trees, \$1.65 each; 2 for \$3.00.

No. 187. You can now grow this favorite Christmas nut, the English Walnut, in your yard or anywhere about the place. Will grow on practically any type of soil. Their hardiness and rapid growth, long life and beauty makes them very valuable. They require no special care and add greatly to the value of any property on which they are planted. A doubly useful tree. Shade with nuts at the same time. The nuts have an extra thin shell and the large, plump, meaty kernels come out easily whole or in halves. For shade, beauty and profit they cannot be excelled.

PRICES: 2 to 3 ft. trees, \$2.35 each; 2 for \$4.50; 5 for \$10.50. 3 to 4 ft., trees, \$3.00 each; 2 for \$5.50; 5 for \$12.50.

NUT TREES Are A Permanent Investment

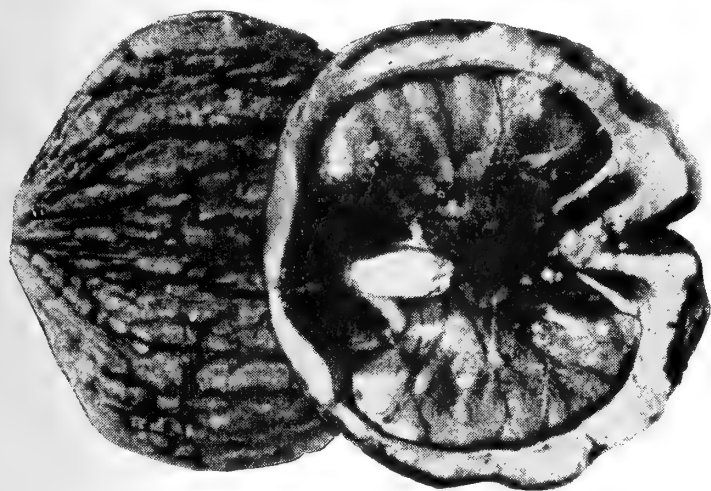

BUTTERNUTS

This rapid growing, lofty, attractive, spreading, ornamental tree is one of our finest native trees. While exceedingly hardy, it is valued for its tropical appearance and beautiful wood. RUSSIAN MULBERRY

Rich purple fruit. A fast grower and a pretty shade tree. Berries make fine jams and jellies as well as fresh eating from the tree. Plant with cherries to keep birds from the trees. Rugged and hardy. 4-5 ft. trees, \$1.25 each; 3 or more \$1.05 each.

Russian Mulberry

New HYBRID ELM

- LONG LIVED
- DISEASE RESISTANT
- EXTREMELY FAST GROWING

The ideal shade tree for that spot where fast growth is necessary, yet the finished tree is of good hard wood with long life and is hardy. This combination of the permanent, beautiful American Elm and the fastest growing of all shade trees, the Chinese Elm, is extra hardy and continues to grow in hot or cool, wet or dry, weather. Large, dark green foliage, smooth medium gray bark. The branches grow straight and strong and have great resistance to breakage from high winds, ice and snow. Apparently immune to Dutch Elm disease. Full rooted, branched trees, 6-8 ft., \$3.75 each; 3 for \$9.00.

MOUNTAIN ASH

(European). Plant a pair of these trees on your front lawn. The leaves are narrow and formed in pinnate shape, arranged on fondlike branches with huge cluster of orange berries, that make this our most beautiful shade tree. Grows to a height of 40 feet.

Specimen Trees	Each	2	4
4-5 ft.	\$2.25	\$4.20	\$8.00

Mountain Ash

AMERICAN LINDEN

(Tulipa Americana). Most formal compact growing tree. Beautiful and hardy with compact round top. Large heart-shaped leaves that give dense shade. Wonderfully fragrant flowers. Rapid grower. A very good shade and street tree.

Grows 60 to 90 feet at maturity. Full rooted 5-6 ft. trees \$2.25 each.

NEIGHBORHOOD SHADE TREE BARGAIN

Get together with your neighbors and buy these small, fast growing shade trees in quantity and SAVE. Trees are fine lively stock and selected for extremely rapid growth. A wonderful opportunity to plant the whole neighborhood, or that large back yard at bargain prices. 4-5 foot lightly branched, ready to shoot-up trees.

TREES for Shade and Beauty

Niobe Weeping Willow

Scarlet Maple

Pin Oak

NIOBE GOLDEN WEeping WILLOW

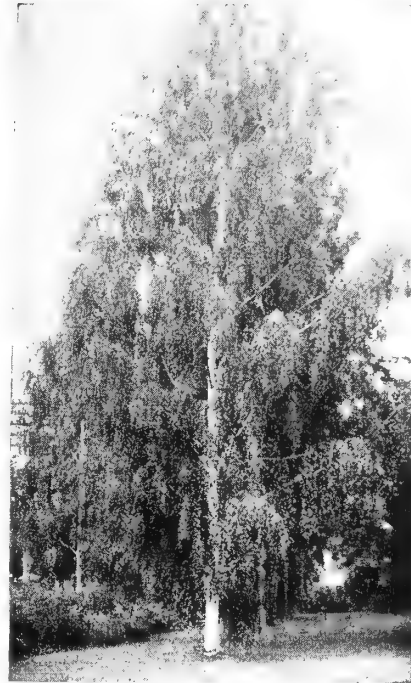

(Salix)

Gracefully drooping branches and a golden colored bark make Niobe Golden Weeping Willow a most attractive tree in both winter and summer. The branches often droop to the ground and the golden bark is lovely to see the year around. Niobe is a rapid grower. Attractive when planted in a prominent place, as shown in the picture, and especially attractive near a lily pool or a rock garden. 30-35 feet at maturity. 5-6 ft. trees, \$1.80 each.

CUTLEAF WEeping BIRCH

(Betula Pendula Laciniata)

This stately, white trunked weeping tree has delicate, threadlike branches that weep in long strings to the ground. One of America's most beautiful shade trees, it grows 20 to 30 feet tall. Its bark is gleaming white both Summer and Winter. One of the few Shade trees under which grass will make good growth. A single specimen or group adds distinction to a lawn. The white bark develops a year or two after the land conditions. 30-40 ft. at maturity. 5 to 7 ft. trees, \$3.00 each.

Cutleaf Weeping Birch

SCARLET MAPLE

Scarlet Maple (Rubrum). In the fall this is the most gorgeously colored tree in all America. Leaves are brilliant rosy-scarlet. In spring, tree is loaded with scarlet flowers, followed by bright red seed. Foliage is very attractive, deep green above and blue-green below. Makes shapely, long-lived tree that is not so dense but grass grows underneath. Valuable for lawn and parking. 40-50 feet at maturity. 5-7 ft., \$2.85 each.

NORWAY MAPLE

(Acer Platanoides). Round headed tree that seldom grows more than 30 feet tall. Hardwood that is not subject to wind and ice damage. Dark green, thick foliage. The perfect sized tree for the small home. 4-5 ft. trees, \$1.75 each; 3 or more \$1.50 each.

Norway Maple

PIN OAK

(Quercus Palustris)

Queen of All Shade trees. The Pin Oak is one of the fastest growing of the Oak family. For street and lawn planting, it has no equal. The foliage is rich green, deeply cut, and colors to a glossy copper late in the Fall. It is not generally bothered by insects or disease, and adapts itself to all locations. At maturity it stands 30 to 40 feet. It grows in a symmetrical pyramidal form. 5 to 7 ft. Trees, \$3.00 each.

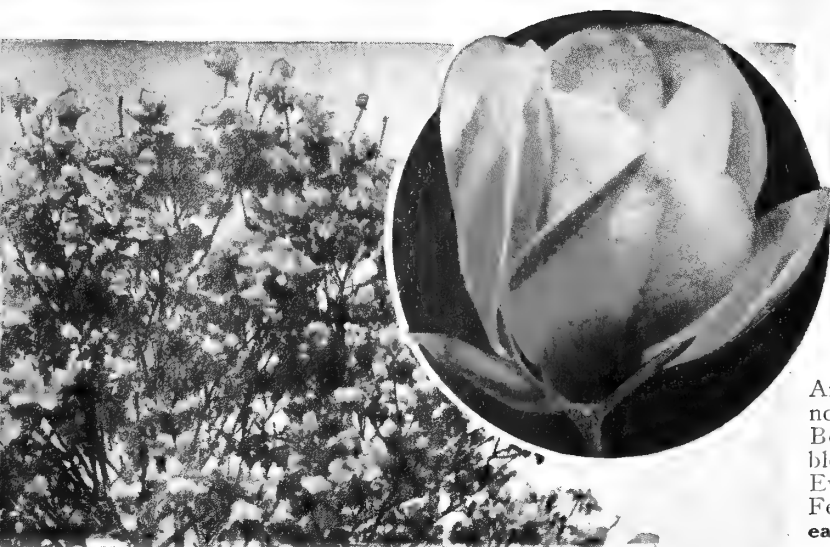

TULIP TREE

(Liriodendron Tulipifera)

One of the grandest of our native trees. It grows into a tall pyramid with broad, glossy, fiddle-shaped leaves of a clean, rather bluish gray shade, which in fall turns bright yellow. Beautiful, light orange-yellow, Tulip-like flowers, 1½ to 2 inches long, appear magically over the tree in May and June. 5 to 7 ft. trees, \$2.50 each.

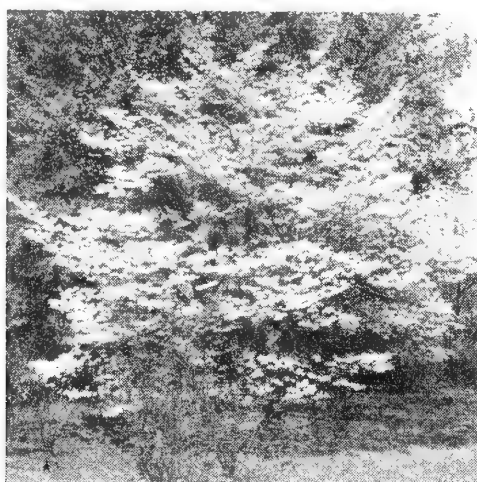

Tulip Tree

Colorful **ORNAMENTAL** TREES

HARDY MAGNOLIA

Among the finest of all ornamental trees are these hardy Magnolias. Large bell-shaped red blooms measuring 5 to 7 inches across. Beautiful waxy sheen on large bright green foliage. Trees begin blooming when quite small, usually the first year after transplanting. Eventually attain a height of 10 to 12 feet. Fairly fast growing. Fertilizing annually promotes good growth. **PRICES: 3-4 ft. \$3.00 each.**

White Dogwood

RED DOGWOOD CORNUS FLORIDA RUBRA —

This small, uniform tree is covered with large, rose-red flowers, often measuring three to four inches in diameter, before the leaves in early Spring. Its grayish-green foliage is attractive during Summer. In Autumn the foliage turns a glistening rich crimson. Our trees often bloom the same year planted.

Selected well-branched 3 to 4 foot trees, \$4.50 each. 2 for \$8.00.

Red Dogwood

WHITE DOGWOOD

One of the most beautiful of all native trees. Flowers are large white and produced in clusters before leaves appear; the flowers are followed in the Fall by numerous red berries and Autumn color of foliage is quite brilliant. A fine specimen tree for lawn. Attractive when planted with Red Bud. **Select 3 to 4 ft., \$2.10 each; 2 for \$4.00.**

MIMOSA TREE

Or silk tree. Sometimes called the sensitive tree. A low-growing tree with pale green, fern-like foliage which closes up, or sleeps, at night reopening each morning. Delicately lacy and very decorative. Feathery, fragrant pink blossoms produced in abundance all summer. Blooms young. Good for shade. Excellent for landscaping. **PRICE: 4-5 ft., blooming size \$1.75 ea.; 3 or more, \$1.60 ea.**

Mimosa Tree

HOPA FLOWERING CRAB

Beautiful in bloom, beautiful in foliage, beautiful in fruit. In the spring, it is covered with fragrant, bright pink flowers. In summer, it is loaded with clusters of red crab apples which last until severe freezing weather. The fruit is wonderful for jelly and canning. In the spring, the foliage is a rich maroon. Perfectly hardy, easy to grow, will thrive in any soil. **PRICES: 4-5 ft., \$2.40 each.**

RARE FLOWERING TREES

PEPPERMINT FLOWERING PEACH

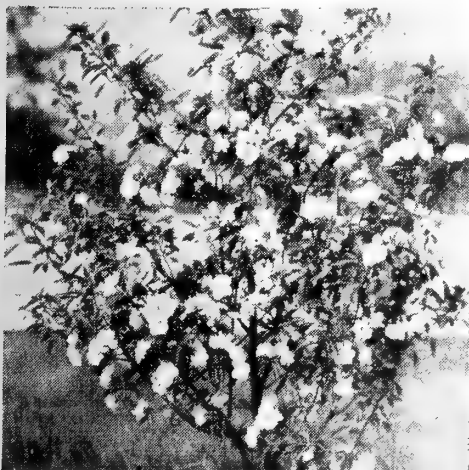

One of the newest introductions in the flowering peach tree family. Large, moderately double blooms cover the tree. Bright, two tone color to dress up any lawn. The flowers are white with red stripes. Must be seen to be appreciated. **3-4 ft. trees, \$1.10 each; 3 for \$3.00.**

PURPLE FRINGE SMOKE TREE

This different, but most striking and graceful shrub was brought to the United States from the southern part of Europe. It is perfectly hardy and easily grown, but as yet it is comparatively unknown. Planted as a single specimen on the lawn, in the corner of the yard, or planted alongside the house, where it can be seen to advantage, it always excites comment. In late Summer and Fall it is entirely covered with a curious fringe of fine, purplish misty-looking flowers which gives the bush a smoky appearance. Grows 10 to 12 feet tall and is surely a beauty. **Price, extra strong, 3-4 ft. bushes, \$1.75 each. 2 or more, \$1.65 each.**

BECHTEL'S FLOWERING CRAB

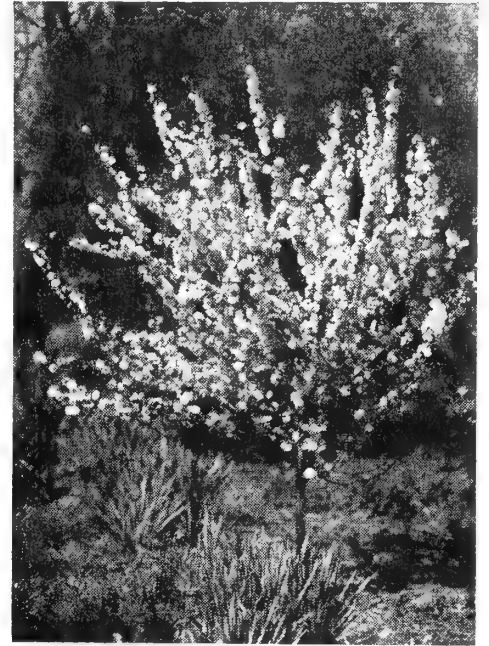

Often called the PINK ROSE TREE. In the Spring, when the trees are covered completely with rich rose-like flowers, you are compelled to say it is the most beautiful tree you have ever seen. Trees are very graceful and seldom grow more than 12 feet in height. Trees extremely hardy and can be grown successfully in all sections of the Country. **Price: Select, Well Branched 4 to 5 feet, Heavy Blooming Size, \$2.50 each.**

Bechtel's Flowering Crab

ROSE TREE OF CHINA

PRUNUS TRILOBA—One of the most beautiful and showy of all small trees. It begins to bloom before the leaves appear in the spring, being literally covered with very double rose-like flowers. This symmetrically formed, graceful little tree grows usually to a height of but 6 feet and is attractive as a specimen or when planted in groups or shrub border. It is hardy and easy to grow, and no lawn is so small that room cannot be found for at least one of these wonderful, new small trees. Many who see them declare they are the most beautiful trees they have ever seen. The large, rose-like blossoms make fine cut flowers. **Select blooming-age trees, 3-4 ft., \$2.25 each.**

Rose Tree of China

NATIVE REDBUD OR JUDAS TREE

A small tree of refined type. Most desirable for planting in lawn or borders. The tree is a mass of bright red in early spring before leaves appear. One of the handsomest of the low growing, flat-topped trees. Attains a height of about 15 feet at maturity. Along the numerous, wide spreading branches rosy lavender blooms appear before the tree leafs out in spring. Flowers are so thick the tree appears as a small pink cloud. Due to the extreme hardness of the wood, the tree is usually very late leafing out. **Select extra large, 4 to 5 ft. specimens, \$1.95 each.**

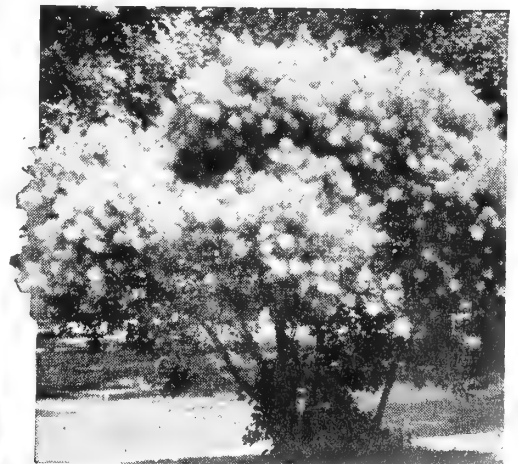

Redbud or Judas Tree

TAMARIX, HISPIDA

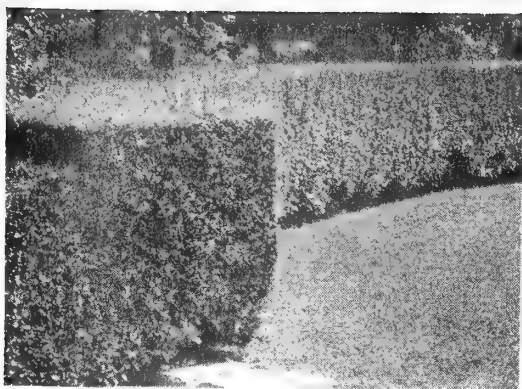

By far the best Tamarix. Very dense, silvery-blue, feather foliage. Bright pink flowers all summer. If not pruned will grow 10 to 15 feet tall, but it can be kept trimmed to a much lower height. Grows in the sun or shade, in wet or dry places. One of our best shrubs. **2 year old bushes, 2-3 ft., 75¢ each.**

Tamarix, Hispida

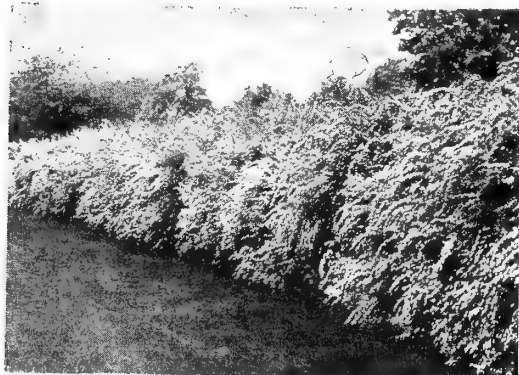

Smoke Tree

Amoor River North Privet

Red-Leaved Barberry

BRIDAL WREATH SPIREA

Our most useful and popular flowering shrub, grows successfully anywhere in either sun or shade. Plant in shrub border, tall foundation groups, corners and for screening hedges. Multitudes of small white flowers in clusters furnish a wall of beauty during June. Well-branched, well-rooted bushes. **PRICES:** 18-24 in., 10 for \$3.00, 25 for \$6.00, 100 for \$18.00.

HANLEY'S HARDY HEDGES

PLANT THEM FOR PRIVACY, PROTECTION
AND DEFINITION OF PROPERTY

GROW YOUR OWN LIVING FENCE

A beautiful green wall that beautifies as it serves to make a barrier or a screen, at very small cost and no maintenance except to prune to desired shape and height. The hedge plants we offer are heavy, well-branched, field-grown plants which give an immediate effect, and should not be confused with small, spindling 2-year seedlings from beds.

AMoor RIVER NORTH PRIVET

(*Ligustrum Amurense*) The hardiest and healthiest Privet for cold climates. Thrives in all soils without special care; resistant to insect pests and not subject to blight. Glossy, dark green foliage appears early in spring and remains very late in the fall. Can be clipped any time in summer to desired height. Set plants 9 to 12 inches apart. **2-Yr., transplanted 18-24 inch, well-branched plants, 10 for \$2.80; 25 for \$5.60; 100 for \$17.00.**

CHINESE PRIVET

(*Ligustrum Sinense*) Evergreen Hedge. This hardy privet is upright and twiggy in habit. It makes a beautiful dense hedge which remains formal and neat even though not pruned. Will stay evergreen except in the most severe northerly winters. Medium rate of growth and fine texture make it a very valuable hedge plant. **Prices:** Heavy transplanted 18-24 in. branched, 10 for \$2.80; 25 for \$5.60; 100 for \$17.00.

"TRUE-RED" BARBERRY

There is nothing so strikingly brilliant in hardy shrubs as our genuine "True-Red" strain of Red-Leaf Barberry. Its abundance of thick, purplish maroon leaves glisten in the sun, contrasting with the green and yellow of other plants. Valuable as single specimens, groups or borders. **Prices:** 2-Yr., 12-15 in. Hedge-size plants, 65c each; 10 for \$6.00; 25 for \$13.50. 4-Yr., Heavy-branched 18-24 in. Specimens, 75c each; 3 for \$2.10.

LOMBARDY POPLAR

The Perfect Tree For a
Windbreak, Hedge or Tall Screen

For a low priced, fast growing, beautiful, tall screen, windbreak or hedge, the Lombardy Poplar is the answer. It has no equal as a tall border along property lines, driveways or as a single sentinel at entrances. Also, has great beauty as a lawn specimen and often can be used where a spreading tree will not fit. It used as a hedge, planted in a row, plant about six feet apart.

Prices: 4-5 ft. trees, 50¢ each; 10 for \$4.50; 11 or more 40¢ each.

MULTIFLORA ROSE

Amazing New Living Fence

Millions planted annually by U. S. Soil Conservation Service, State Game Commissions, hunt clubs, and farmers all over the country. Makes excellent game cover and provides winter food for song and game birds.

Attractive plants grow 6 to 8 feet tall and nearly as wide. Sprays of white flowers with yellow stamens cover the plant in June. Many farmers are using as permanent fences at one-third the cost of woven wire. So bushy and thorny it furnishes a stock-tight, human-tight fence which beautifies the surroundings and tends to keep down weeds. A good snow barrier, windbreak and soil erosion control, too. Does not rob the soil beyond its own branch spread. Plant 1 foot apart for fence; 3 to 5 feet apart for game cover and naturalizing.

New Hardy CRAPE MYRTLE

**BLOOMS CONTINUOUSLY FROM MID-SUMMER TO FROST.
IMMENSE, ATTRACTIVE, BRILLIANT FLOWERS FOR THREE MONTHS.**

Crape Myrtle, the South's most beautiful Shrub, can now be grown successfully in the North. We have secured a strain which is much hardier. In the extreme Northern States, grow it just like Everblooming Roses, giving it Winter protection by mounding up dirt about 8 inches high before severely cold weather. In Spring, uncover. Like Roses, Crape Myrtle makes its blooms on new wood and if the tops are killed back to the ground, it will send up new tops in the Spring, which will be covered with huge blossoms from July to frost. **Select Ready to Bloom, Extra Heavy, Top Quality, 2 to 3 ft. bushes, 95¢ each. All colors same price.**

- No. 316A Hardy Watermelon Red
- No. 316B Hardy Apple Blossom Pink
- No. 316C Hardy Snow White
- No. 316D Hardy Lilac Purple
- No. 316E Hardy Dwarf Lavender-Blue

ALTHEA—Rose of Sharon

A beautiful, tall, rounded shrub mainly valued for its late flowering habit. Blooms from late summer through the fall months when other shrubs have passed the blooming period. Flowers are large, and brightly colored. Attractive green foliage. Popular as a specimen or for hedges and borders. Grows 6 to 8 feet tall. A welcome sight in fall. **Specify colors desired: Red, Pink, Purple, White. 2-yr., blooming-size plants. 80¢ each; 2 for \$1.55; 4 for \$2.95.**

SENSATIONAL NEW BERBERIS MENTORENSIS

A cross between Barberry Thunderbergi and Barberry Juliana, both of which are widely cultivated for the extremely handsome foliage and density of growth. This new Berberis is an improvement of both and with its very rugged, upright growing branches and good thorns. Foliage is heavy and thick and of the most perfect color—a deep, dark, glossy green. Grows well in shade or sun. Excellent for specimen or hedge planting. Ultimate height, unclipped, 5 feet. **Prices: \$1.25 each; 3 for \$3.65; 10 or more \$1.10 each.**

FIRETHORN

A most remarkable **evergreen** shrub. Bears attractive large clusters of white flowers during the late spring followed by an abundance of brilliant orange-scarlet berries which stay on the plant into late winter. Does especially well in a foundation planting. The long shoots can be trained to a trellis or over a doorway. It prefers a warm well drained location. **Price: \$1.80 each, 3 or more \$1.70 each.**

Brilliant, Hardy KURUME AZALEAS

HUNDREDS OF BLOOMS THE FIRST YEAR

The Kurume Azaleas are one of the most showy of all flowers for the garden. They are comparatively easy to grow and make such a brilliant display each year that the demand is constantly growing. These selected varieties are noted for their heavy flowering habits and hardiness. In the spring the plants will be covered with beautiful flowers. A never to be forgotten riot of color. Evergreen for winter color.

BOUQUET ROSE. Rose-pink. Large delicate rose-pink flowers in late May or early June. Strong compact grower.

HINODEGIRI. Brilliant scarlet. This is the most popular of the reds. One of America's most brilliant shrubs. Completely covered with a mass of scarlet blooms in April and May.

SNOW. Large pure white. Without a doubt, the hardiest and most popular white Azalea. A very free flowering variety. Plant is vigorous and compact. Foliage is attractive deep green.

PRICE: \$2.75 each.

SPIREA ANTHONY WATERER

Highly valued for its dwarf growing habit. Unexcelled for borders, under windows and wherever low growth and bright color is needed. Very dense growth with large clusters of pink-red flowers from early summer to frost. Ultimate height, 24 inches. **Price: 95¢ each; 3 for \$2.25.**

SPIREA BLUE MIST

(Caryopteris). New, hardy variety that will be covered with misty blue flower clusters until frost. Flowers are long lasting and make excellent arrangements. Easy growing dwarf shrub. Grows to 18 inches. **Price: 80¢ each; 3 for \$2.25.**

SPIREA VAN HOUTTEI

(Bridalwreath). The famous all purpose, hardy, dependable shrub. Large clusters of white blooms all summer. Most planted of all shrubs. Easy to grow and does well in shade or sun, good or poor soil. Grows 8-10 feet. **Price: 30¢ each; 3 for 80¢.**

Spirea Blue Mist

Spirea Van Houttei

FORSYTHIA Spring Glory

Without a doubt, the best of the new Forsythias. Its large, pale yellow flowers completely cover in huge masses. It blooms in very early spring to make you forget the colorless winter. This variety produces at least double the number of blooms on the common types of Forsythia now in general use. Cut a few branches in January and they will burst into bloom in the house within a few days. Grows 8-10 feet. **Price: \$1.25 each; 3 for \$3.50.**

Pink Flowering ALMOND

Beautiful, double, roselike pink flowers in very early spring. Very popular, highly ornamental. Grows to 3 feet. **Price: 75¢ each; 3 for \$2.00.**

Hills of Snow HYDRANGEA

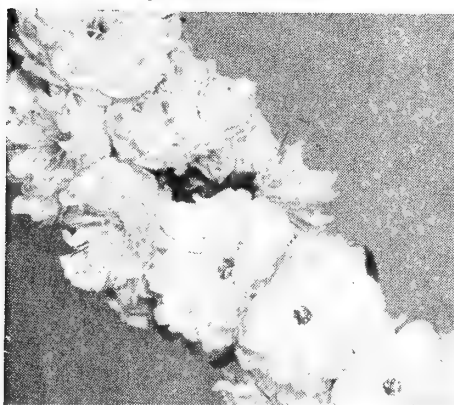

Everblooming Hydrangea. Constantly in bloom from early summer until frost. Bears great clusters of hardy white flowers. Does well in shade making it very valuable under trees or on the north side. Hardy anywhere. Grows to 5-6 feet. **Price: 90¢ each; 3 for \$2.50.**

NEW DWARF FORSYTHIA

Bright yellow flowers in early spring on low growing, spreading bush. Ideal for ranch type construction. Grows to about 2 feet. Strong, bushy plants produce huge quantity of blooms each spring. Earliest among the blooming shrubs. **Price: \$1.50 each; 3 for \$4.00.**

DOUBLE MOCK ORANGE

(Philadelphia Virginal). Big everblooming, double, thick, waxy, white blooms from early spring continuously until fall. Neat, semi-dwarf shrubs. Most popular and easiest to grow. 5-6 feet. **Prices: 75¢ each; 3 for \$2.00.**

4 Glorious New Everblooming Butterfly Bushes

New Buddleias, each the finest of its color, and all blooming profusely and continuously from early summer to frost. They make a compact bush, 4 feet or so tall. The roots are hardy, the tops die down in winter, then come up even more vigorously in the spring. All are blooming size.

No. 373. **ROYAL RED.** (Patent No. 556). By far the best red Buddleia. The color is a very rich, glowing ruby-red. The throat of each single flower is lighted with gold. There is no finer nor more attractive flower. **Each 90¢.**

No. 375. **EMPIRE BLUE.** (Patent No. 557). The color is a charming aster-blue with a delicate lilac tone, the whole effect being an exquisite shade of blue. No other blue Buddleia can compare with this. **Each 90¢.**

No. 372. **PINK DAWN.** The compact plant attains a

height of 4-5 ft., carrying deep, dark green foliage. The flower is pink throughout and produced in great abundance throughout the entire summer and autumn. Excellent as a cut flower. This is the best pink Buddleia in existence. **Each 90¢.**

No. 377. **SNOWBANK.** This new white Buddleia produces fully round and compact sprays measuring 10 to 15 inches in length and carries an abundance of deep, dark green foliage. **Each 90¢.**

HEMEROCALLIS (Day Lilies)

We can finally offer a group of hybrid varieties of Day Lilies that are the result of long experimentation and crossing to give us a superior strain, and in a collection that will keep your garden and home in blooms from Spring to Fall, with a variation of colors. The hardiness and attractive foliage of these selected varieties make them suitable to any location.

MIKADO (June). Rich orange with a large spot of mahogany-red in each petal. Striking and unusual. The outstanding charm of this variety are its bold color contrast and perfection of form.

FULVA (July). Deep red at the center, fading out to a lighter shade toward the edge, with a cream line running through the center of each petal.

HIGH BOY (August) Large, pale yellow flowers on tall graceful stems. Truly huge.

AUGUST PIONEER (Mid-August to Mid-September). Profuse bloomer, one of the late blooming multi-flora hybrids. Miniture flowers of chrome-orange with the outer half of the petals flushed red.

PRICE: 59¢ each; 3 for \$1.70; 10 or more, 50¢ each; your selection.

Colorful Hardy Phlox

No. 412. POLKA DOT—Amazingly light pink with fuchsia eye. Beautiful polka dot effect.

No. 414. WORLD PEACE—Pure white flowers are produced on strong sturdy stems. A vigorous grower with dark green glossy foliage. One of the best new white.

No. 416. STARLIGHT—Large purplish-violet florets with white star at center which creates a most unusual effect, a variety that is always in good demand.

No. 420. BRIGHT EYES—Seldom has one seen such a shade of red. Its brilliant scarlet blooms seem to glow with fire. Of splendid habit, about 3 feet high, with full, rich heads; blooms early. The best red Phlox in existence.

No. 422. PURPLE HEART—The individual flowers are large and are carried in good size trusses. The color is a brilliant live shade of deep blue purple intensified by a darker center given sparkle by the dainty cream colored anthers.

No. 424. ATTRACTION—A giant amongst the Hardy Phlox and unquestionably the most outstanding variety we have seen. Color rich luminous salmon-pink. The flower truss is truly massive, robust, vigorous, with sturdy stems and bold substantial foliage.

CUSHION MUMS

Sometimes called "Million Mums." A group of low growing Chrysanthemums, forming mounds of blooms, reminding one of the old-fashioned Azalea. The plants grow about 10 to 12 inches high. Our stock is of improved strains. Most varieties begin blooming late in August and bloom until frost.

No. 452. CUSHION BRONZE—As the flowers first open they are a warm, rich red bronze, then turning to a bronzy yellow with a light red center. Later lighten to a beautiful golden bronze shade. **50¢ each.**

No. 454. CUSHION PINK—Flowers open to a deep, orchid-pink, then change to a light orchid with a creamy center, finally salmon-pink with a soft yellow center. **50¢ each.**

No. 456 CUSHION RED SUPER DELUXE—Plant is perfectly formed and makes a mound 18 inches high with a diameter of 3 feet in its very first year. Bright shade of red. Mid-September. **50¢ each.**

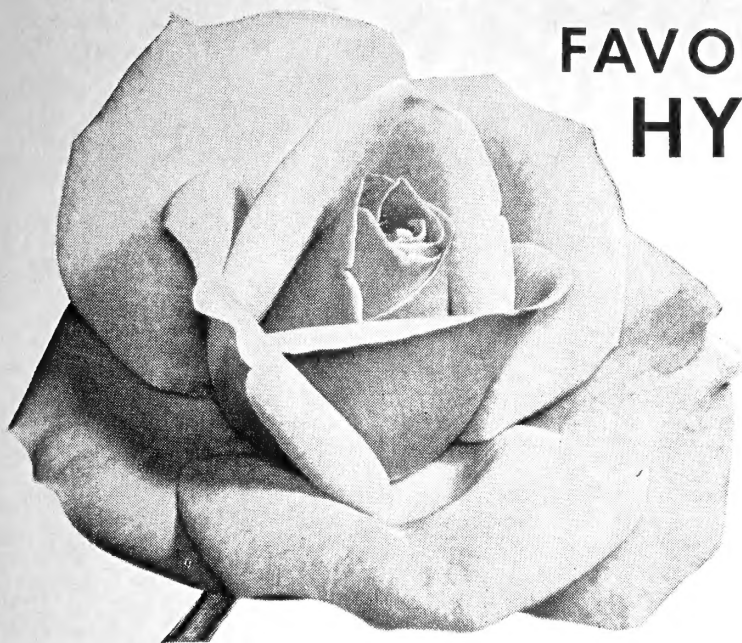

No. 458. CUSHION WHITE—Lovely snow-white flowers with a faint yellow center. **50¢ each.**

No. 460. CUSHION YELLOW—Pure golden yellow, very brilliant. Develops into large, dense clumps, often measuring 24 to 30 inches across. Early October. **50¢ each.**

All Roses on this page, \$1.10 Each, Any 3, \$3.00,
\$10.75 per dozen. Any combination, Your Choice

AMERICAN BEAUTY. Large, full, crimson-carmine. The bush is large and blooms again after big June burst. One of the best known names among roses.

AMI QUINARD. Dark velvety red. Almost black. Long buds of medium-sized flowers are produced freely on an erect bush. Leathery foliage. Very hardy.

BETTER TIMES. A glorious red color. This rose is prized for its long stems, pointed buds and large blooms with texture like shimmering satin.

CONDESA de SASTAGO. Very large flowers of copper-red inside and a rich shade of yellow outside. Strong, healthy, vigorous grower and free flowering. Very fragrant.

CRIMSON GLORY. Beautifully formed blooms of vivid crimson. Good stem hold flowers. Vigorous, strong erect bushes. Wonderful fruity fragrance.

ECLIPSE. The slim tapering buds open to brilliant golden yellow. Plant has new buds throughout the season. Rich, heavy, attractive foliage. Excellent everywhere.

EDITOR McFARLAND. Large, perfectly formed blooms of clear brilliant pink. Plants healthy, free blooming, with flowers borne on strong stems. One of the longest-lasting cut flowers.

ETOILE de HOLLANDE. Considered to be one of the best bright reds. Perfect buds; velvety-crimson blooms. Strong, healthy bush. Fine for cutting.

FRAU KARL DRUSCHKI. (White American Beauty). Pure white blooms of perfect form. Strong growing and free flowering. Blooms in June and again in Fall.

K. A. VICTORIA. Soft, pearly white touched with lemon in the center. Long graceful stems. Strong, healthy grower. Very fragrant.

MRS. P. S. DuPONT. Deep golden yellow flowers produced on strong vigorous bushes. Profuse and continuous bloomer. Very fragrant.

PINK RADIANCE. Brilliant carmine-pink. Fragrant flowers produced all season on a good strong, healthy bush. Does well anywhere.

PRESIDENT HERBERT HOOVER. A glorious combination of cerise-toned orange, scarlet and yellow. Unbelievable stems and fragrance.

RED RADIANCE. America's great red rose. Vigorous, hardy, healthy, free blooming with real rose fragrance.

TALISMAN. A glorious combination of brilliant red and gold. Buds opening to orange and yellow. Very vivid.

THE DOCTOR. Sparkling pink 5 to 6 inch blooms. One of the largest, most beautiful and sweetest of all roses.

Colorful Everblooming FLORIBUNDA ROSES

Bloom from June until frost. Excellent landscape material for edging walks, etc.

CIRCUS. (Plant Pat. 1382). The 1956 All-American Rose Selection! Beautiful urn shaped buds of bright red and yellow with each color changing as the lovely flower unfolds. Each bloom changes as it develops from orange to pink to cream to gold then finishes with a flourish of bright red. The Center Ring attraction in any planting. Medium low growing, very vigorous bush with excellent foliage. Blooms outstanding as a cut flower. Each \$2.50; 3 for \$6.60.

JIMINY CRICKET. (Plant Pat. Applied for.) This is the 1955 All-America winner among the Floribundas. The dashing coral-orange color makes it welcome either indoors or out, all season long. Each \$2.25; 3 for \$6.00; doz. \$24.00; 25 for \$45.00.

GOLDILOCKS. (Plant Pat. 672). True golden yellow, opening slowly and gracefully. Fine for any use. Each \$1.50; 3 for \$3.90; doz. \$15.60; 25 for \$30.

Patented — Everblooming Hybrid Tea ROSES

Helen Traubel

PEACE. (Plant Pat. 591). Truly enormous in size, with a strong plant to match. Enchanting pale yellow flowers with an edging of pink that gradually flushes the whole bloom. Each \$2.50, 3 for \$6.60.

MIRANDY. (Plant Pat. 632). The big buds are deep, rich dark red with black shadings, opening to gorgeous chrysanthemum-red. It has a penetrating fragrance. The plant is strong, with heavy stout stems. Each \$2.00; 3 for \$5.25.

MOJAVE. (Plant Pat. 1176). All the warm tints of the desert sunset are combined in this prize-winning hybrid tea—glowing apricot-orange, nasturtium-red, scarlet and vermillion. Slender buds and double, fragrant flowers. It blooms from early spring to late fall and is perfect for cutting. It is a descendant of Charlotte Armstrong. Each \$2.75, 3 for \$7.20.

HELEN TRAUBEL. (Plant Pat. 1028). Sometimes lively pink but more often with lovely apricot tints, depending on the weather. This is a 5 to 6-inch flower with high center, spreading out as it opens. Buds are long and slim. Very free flowering. Each \$2.50, 3 for \$6.60.

CHRYSLER IMPERIAL. (Plant Pat. 1167). You will want Chrysler Imperial for its smashing, rich crimson color. It has oxblood-red overtones and lustrous garnet in the depths of the blooms. The long, slender buds and large, high-centered blooms are equally appealing. Sturdy stems carry the flowers on a well-knit dark-foliaged plant. Each \$2.50, 3 for \$6.60.

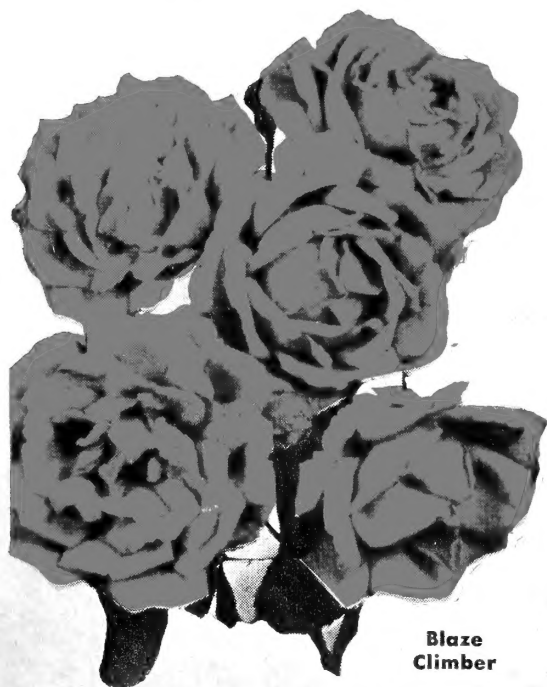

LEMON CHIFFON. (Plant Pat. 1241). Bushy, compact, pure, clear yellow which will retain rich color and continue to flower abundantly through summer heat. Long pointed buds open to four inch solid yellow flowers with wonderful fragrance. Each \$2.50; 3 for \$6.60.
